

**Law 10:  
Cultivate Your Curiosity**

**“Always make your questions  
bigger than your answers.”**

— *The Laws of Lifetime Growth* By Dan Sullivan  
and Catherine Nomura

**“The key to progress and  
success in 2007 is not the  
goals you establish, but the  
growth you achieve.”**

**“As children, when we’re all growing  
at a rapid rate, we ask lots of questions.  
As we get older, we gradually begin to  
think we have a lot of the answers.  
For some people, their entire sense of  
security and self-image depends on  
having all the answers—on never  
being wrong.”**

**“As a result, these people try to  
understand everything in terms of  
what they know. But all growth lies  
in the territory of the unknown.  
What we already know is in the past.  
What we have yet to discover  
is the future.”**

**“Always make your questions bigger  
than your answers, and you’ll keep  
drawing yourself into a bigger future  
with new possibilities.”**

— *The Laws of Lifetime Growth* By Dan Sullivan  
and Catherine Nomura

**Jesus Christ, the Master-Teacher**

- What did Moses command?
- Why do you call Me good?
- Is not life more than food and the body more than clothing?
- Which of you by being anxious can add a single hour to his life span?

- Why do you see the speck that is in your brother's eye, but do not notice the log that is in your eye?
- Which one of you, if his son asks for bread, will give him a stone?
- What do you want me to do for you?
- Whose likeness is on this coin?
- Who do men say I am?
- Who do you say I am?

There is nothing more powerful  
than a question. Why?  
The mind cannot ignore it.

#### 7 Benefits of Questions > Answers:

1. Increases Your Clarity

#### 7 Benefits of Questions > Answers:

1. Increases Your Clarity
2. Fuels Your Creativity

“The uncreative mind can spot wrong answers, but it takes a creative mind to spot wrong questions.” —Anthony Jay

“Imagination is more important than knowledge.”

**“Imagination is more important than knowledge.”  
— Albert Einstein**

**“Discovery consists of looking at the same thing as everyone else and thinking something different.” — Albert Szent-Gyorgi**
